Twelve Months Dead Line.

By order of the Postoffice Department all weekly papers can no longer be mailed as second-class matter to subscribers twelve months or more in arrears. In complying with this new ruling we have been compelled to cut off 300 names, and all subscribers from this time on will have to be promptly dropped when their subscription becomes twelve months past due. Please keep yourself from under the dead line by paying one year in advance. Publisher.

Railroad Depression.

Last year the cry was shortage of cars; this year it is shortage of something to ship. The L. & E. has cut off two freight trains, and the C. & O. has done the same; the L. & N. has also cut off a great deal of useless train service and the same is the case with all roads. As a consequence many laborers are out of employment. It is bad, but the world was humming too fast and really we needed something to set us back a few paces.

Swapping Seed For Votes.

The Secretary of Agriculture in his report for 1907 alludes to the expenditure of \$50,000 for common garden seed, and the 6,400,000 packages sent out by Congress to the people as a burden upon the nation. In obedience to this law he purchases and gives away 800,000 packages of flower seeds. Demagogues in Congress, under the pretence of benefitting the farmers, send them garden seeds in exchange for their votes.

Fire at Stanton.

Monday night the store of Blackburn & Ewen at Stanton took fire and shortly the building all goods in the same was burned to the ground. The fire spread to Dr. Johnson's office and it also was consumed though many articles were saved from the office. Both buildings belonged to Dr. Johnson and were uninsured. The stock of goods was insured for only \$1,000 00. The fire is supposed to have originated from a defective flue.

Chas. Johnson Killed in Alabama.

Chas. Johnson was cut up by Russell & Hutchins' Stave Mill at Russellville, Ala. Monday and died from his injuries Tuesday. Burial in that state.

Deceased was a son of Mr. and Mrs. Wm. Johnson of this city. He married at Russellville and leaves a wife there. Charlie was a splendid young man and he has many friends in Clay City who learned of his untimely death with great sorrow.

February is a notable month from the fact that when pay day falls on Saturday there will be five in the shortest month this year; it contains ground hog day; is the leap year month; Lincoln's birthday is in this month as is Washington's; St. Valentine's day comes on the 14th, and winds up with Chinese New Year. The month is little but full of important dates.

Resolutions of Respect.

Whereas, it has pleased Almighty God to take from us our beloved brother, G. W. Herron,

therefore be it resolved by Red River Lodge No. 70 K. of P.

1st.—That in the death of our Brother we have lost one of our most valued members, whose life as a just and upright Knight we will ever revere and always strive to emulate.

2nd.—That in the death of our brother our community and our Lodge has lost one of the best citizens and one whom we will sadly miss, and one whose Knightly virtues we can never forget.

3rd.—That while we mourn our brother's death, yet we humbly bow to the will of Him who doeth all things well, knowing that our Brother's spirit has taken its flight to that mansion not made with hands eternal in the heavens.

4th.—That a copy of these resolutions be spread upon the minutes of this Lodge, a copy sent to the bereaved family, and a copy published in the Clay City Times.

Few Here Know This

When an eminent authority announced in the Scranton (Pa.) Times that he had found a new way to treat that dread American disease, Rheumatism, with just common, every-day drugs found in any drug store, the physicians were slow indeed to attach much importance to his claims. This was only a few months ago. Today nearly every newspaper in the country, even the metropolitan dailies, is announcing it and the splendid results achieved. It is so simple that any one can prepare it at home at small cost. It is made up as follows: Get from any good prescription pharmacy Fluid Extract Dandelion, one-half ounce; Compound Kargon, one ounce; Compound Syrup Sarsaparilla, three ounces. Mix by shaking in a bottle and take in teaspoonful doses after each meal and at bedtime. These are all simple ingredients, making an absolutely harmless home remedy at little cost.

Rheumatism, as every one knows, is a symptom of deranged kidneys. It is a condition produced by the failure of the kidneys to properly filter or strain from the blood the uric acid and other matter which, if not eradicated, either in the urine or through the skin pores, remains in the blood, decomposes and forms about the joints and muscles, causing the untold suffering and deformity of rheumatism.

This prescription is said to be a splendid healing, cleansing and invigorating tonic to the kidneys, and gives almost immediate relief in all forms of bladder and urinary troubles and backache. He also warns people in a leading New York paper against the discriminate use of many patent medicines.

The Senatorial deadlock continues with the Legislature with little hopes of electing at this session.

This Bank Offers You Complete Safety and Makes Your Money Aid Prosperity.

SAFETY.

When you are asked to put your money in a bank you have a right to know and should know just how and why that bank is safe. We want you to understand the reasons for the supreme safety of this Bank.

The Clay City National Bank

is organized under the National Banking Law and is under the constant supervision of the United States Government.

Not less than five sworn reports must be made each year, and these reports are always called for an unexpected date in the past. The affairs of this bank must always be in such shape that we can make a satisfactory, detailed statement to "Uncle Sam" for any past date that the Comptroller of the Currency may pick out.

This means daily readiness. These reports must be published and must be verified by the expert Bank Examiner whom the Government sends here to thoroughly examine this Bank twice each year, at unexpected times.

This Bank has PAID IN CAPITAL of \$50,000.00, Surplus of \$7,800.00, and under the Federal Banking laws applying to National Banks, its stockholders are liable for \$50,000.00 making altogether \$107,800.00, which stands, not as the total security, mind you, but as the margin of security protecting its depositors. All of this sum must be lost before any depositor can lose a penny.

This Bank is restricted by law to conservative business methods.

The funds are protected by modern steel vaults and insured against burglary and sneak thieves.

Its officers and employees are under bond for the faithful discharge of their duties.

All of these things, coupled with conservative management, insured by the careful, personal attention constantly given the Bank's affairs by a notable able Board of Directors, assure our patrons of that supreme safety which is the prime essential of a good Bank.

CAMBRIDGE

The Cambridge Reversible Sulky Plow is the highest type of plow of the twentieth century—constructed on correct scientific and mechanical principles. It is the result of a constant endeavor to produce a perfect riding plow, and has 63 years experience in plow making back of it. The demand of the times has been for a better riding plow—the Cambridge meets that demand and only needs to be tried to convince the farmer that it is the superior of any riding plow ever before produced. It will do splendid work equally well on level land and on the hill-side; will leave the soil smooth and free of ridges and dead furrows; works with lighter draft than any hand plow doing the same work—easy on man and team. Made in two sizes and from the best malleable iron and high grade steel; improved and extra heavy steel wheels with dust cap and removable chilled boxes. Easy to manage, always under perfect control.
